

PAEDIATRIC FEEDING ESSENTIALS

Assessment, diagnosis and treatment with an evidence-based approach to hot topics.

Melbourne: 4-5th Sept 2017 (Mon-Tues)

Brisbane: 11-12th Sept 2017 (Mon-Tues)

DAY 1

Infant Feeding, tongue tie & oral motor skills – *Carly Veness, CPSP*

- Normal feeding and oral development (0-12 months)
- Assessment of oral structure, function and feeding skills
- Impact of tongue tie on feeding and oral development
- Assessment and management of tongue tie based on current evidence
- Treatment of breast and bottle feeding difficulties
- Treatment of early solids difficulties, including early oral motor skills for feeding

Carly Veness is a speech pathologist who runs Babble & Munch Speech Pathology, a private practice focused on infant & child feeding difficulties. Carly has also worked in the NICU, tertiary hospitals & early intervention & has infant mental health training.

DAY 2

Behavioural feeding incl. sensory issues & ASD – *Rachel Tosh, CPSP*

- How sensory preferences, past experiences and oral motor skills interact in feeding
- Assessment & management of behavioural feeding difficulties including how to analyse and read a child's "cues"
- Selective eating in children with ASD - practical strategies to expand experiences
- The Mealtime Management Method: a simple and practical way to help picky eaters progress

Rachel Tosh is a speech pathologist who runs Therapy Alliance Group, a multi-disciplinary allied health service. Rachel's diverse clinical experience was gained in both Australia and the UK. She has a special interest in paediatric feeding, literacy disorders and parent training.
